

2023 Annual Report

MAIS
CamiNhos

Introduction

Mais Caminhos is a non-governmental organisation based in Rio de Janeiro, founded in 2009. Our mission is to transform the lives of underprivileged children and adolescents living in social-vulnerable situations in Rio de Janeiro, with a focus on promoting education and bridging socio-economic gaps.

Mission and Goals

Our overarching goal is to bridge the gap across socio-economic groups through our programs, recognizing and actively providing basic human rights to underprivileged youth. We aim to create an encouraging environment where these individuals can build skills, knowledge, and empowerment, irrespective of their social or economic circumstances.

Achievements and Impact

We are proud to contribute to fostering a generation of motivated leaders passionate about education, culture, and respect for others. Through our programs, we empower the youth at Mais Caminhos to sculpt their futures without limitations imposed by their backgrounds or economic conditions.

Achievements

Educational Programs

**students in Pedro II,
a prestigious
public school**

Educational Inequality in Brazil

In Brazil, English proficiency is a social marker, with only 5% of the population speaking English. Our programs address this disparity, as English proficiency can significantly impact earning potential and hinder access to higher education.

Working towards Sustainable Development Goals (SDGs)

We align our efforts with the United Nations' SDGs for 2030.
